

OFFICE OF SECURITY
ANNUAL STATISTICAL REPORT

1956

3 - 31 01
5 18
22 2011

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Office of Security Annual Statistical Report
for 1956

1. Commencing with the year 1956, we shall submit annually a report of statistics reflecting a few selected activities of the Office of Security which lend themselves particularly to statistical and graphical presentation. The subjects selected are those which portray accomplishments in representative functions of the office, and which, as time passes, will permit comparison with the work loads and accomplishments of previous years.

2. The attached tables and charts have been compiled from the monthly reports which are submitted to you. The charts have been prepared to allow for the presentation of continuing statistics for comparative purposes in succeeding years. I believe they will be found to be informative and increasingly valuable as time goes on.

Table A
and
Chart #1

OVERT AND SEMI COVERT CASES

The table shows receipts, approvals, disapprovals and total number of cases processed for Applicant Type T/O Staff and other T/O Full Field Investigation cases, and the total receipts and total processing of all Overt and Semi Covert cases.

The total of 12,443 Overt and Semi Covert cases processed is shown in chart form with the 4,803 T/O Staff Applicant cases indicated separately.

Table B
and
Chart #2

FIELD ACTIONS ON OVERT AND SEMI COVERT CASES

The total number of field actions completed during the year in connection with Overt and Semi Covert cases is

shown under the two types of actions, namely Investigations and Name Checks. The total of 4,876 Name Checks shown are only those which were made independently of a field investigation. As you know, all field investigations include name checks.

Table C
and
Chart #3

TIME FACTORS IN PROCESSING OVERT AND SEMI
COVERT CASES

This table and chart reflect the mean average time in days which was taken to process cases through this office. The statistics show the average total time to have been 87 days, made up of 68 days in Investigation and 19 days in Appraisal. These statistics are confined to regular Applicants, Consultants and Military Assignee cases received from the Office of Personnel during the year. Cases of a secondary priority type and those which would distort the average by short processing time are not included.

Table D
and
Chart #4

COVERT CASES AND OPERATIONAL SUPPORT ACTIVITIES

25X1A The total number of 14,809 Covert cases processed during the year consists of Covert Security Clearances, Covert Security Approvals, [REDACTED] and

25X1A13c [REDACTED]

25X1A [REDACTED]

Table E
and
Chart #5 CONTROL, SUPPORT AND SERVICE OF OVERT
ACTIVITIES

The various actions in this field are not similar enough to consolidate them into one total, except for those which apply to the control and guidance of employees wishing to engage in outside activities. The table presents in a few major categories the principal actions of support and service of overt activities and the number of approved and disapproved requests of employees to engage in outside activities. These latter activities encompass requests for approval of outside instruction, private travel, publications, etc., and are consolidated in the chart to show a total of 4,480 such requests processed.

Table F
and
Chart #6 PHYSICAL SECURITY ACTIVITIES

A selected number of the major activities of the Physical Security Division are itemized in this table. The high incidence of security violations at Headquarters is of great concern to me. The total number of 383 open safe violations and 324 lost documents are shown on the chart.

Table G
and
Chart #7 ACCIDENT STATISTICS

The Agency safety record for the year is reflected by this chart and table. The Severity Rate was excellent; the Frequency Rate was greater than that of the National Safety Council but only half that of the Government in General.

Sheffield Edwards
Director of Security
